

Permission to Participate in Walking/Bus Travel Field Trips

I permit my child, _____, to participate in walking excursions and excursions requiring bus travel within metropolitan Seattle. I realize that my child's teacher will provide time/date/location information prior to such excursions, so that I am informed ahead of time that my child may be leaving the school.

I realize parent volunteers may accompany Queen Anne Community School Staff members on these excursions. I understand, however, that parent volunteers are not allowed to be alone with children other than their own. Supervision will always be the prime responsibility of Queen Anne Community School staff.

I am aware that the Queen Anne Community School staff member in charge carries a cell phone, a first aid kit and emergency information on each child, while on these trips.
